Malfunctioning of the VHF at Bombay Airport

SHRI KAMAL MORARKA (Rajasthan): Madam Deputy Chairman, I bring to the attention of the Government, through you, the defective VHF link at the Bombay airport which is causing hazards to the landing and take-off of aircraft. There have been newspaper reports that this very vital communication] link at the Bombay airport has been malfunctioning reducing the range of contact between the aircraft and the air traffic control. Bombay airport has the highest movement of aircraft in the country with about 450 flights a day. And Madam, atleast half of them overfly the Bombay area. In view of this, it is very important that thhs link is restored for the safety of passengers. The international airport at Bombay is a premier airport in the country and with the sophisticated aircraft, taking off and landing at Bombay, it is very essential that the Government looks into this matter and sets the VHF link right. Thank you, Madam

THE DEPUTY CHAIRMAN: Yes, Mr. Sukul.
